

CURRICULUM VITAE

ALLAN MADSEN

MECHANICAL SUPERVISOR | HSE SUPERVISOR | AMK-B

DENMARK | DANISH & ENGLISH | NORDIC SITE SUPERVISION APS

PROFILE

Experienced mechanical supervisor, technician and HSE professional with a strong hands-on background in mechanical installations, stainless-steel piping systems, site management, technical documentation and training. Has carried out daily supervision, Supplier Assessments, Supplier Inspections and SAT, while coordinating quality, safety and testing activities on pharmaceutical and industrial projects. Combines sound technical expertise with clear leadership, structured follow-up and safe execution on site.

CORE COMPETENCIES

Mechanical & piping supervision	Flushing & pressure testing
Supplier assessments, inspections & SAT	Contractor coordination & site management
HSE, AMK-B & safety training	Quality follow-up & technical documentation
Stainless-steel piping, installation & welding	Dalux, Inventor & AutoCAD

PROFESSIONAL EXPERIENCE

JUNE 2026 - PRESENT | Nordic Site Supervision ApS / NNE A/S - Mechanical Supervisor

- Daily supervision and coordination of contractors carrying out mechanical installations on a Novo Nordisk project in Kalundborg.
- Control of quality, workmanship and documentation, including follow-up on deviations and outstanding items.
- Coordination with engineering, commissioning, HSE and other disciplines to ensure safe progress on site.

NOV. 2025 - MAY 2026 | Artelia - Novo Nordisk M2 Water & Steam - AMK-B

- HSE and safety responsibilities focusing on daily site training, Novo Safety training and follow-up.
- Daily safety walks focusing on behaviour, access conditions, PPE, coordination and safe execution of work.
- Reporting observations, actions and agreed measures in Dalux, including preparation of 24-hour reports.
- Development of safety campaigns and visual campaign materials for use on site.

2022 - NOV. 2025 | NNE A/S - Supervisor

- Preparation and execution of Supplier Assessments, Supplier Inspections and SAT.
- Daily supervision of contractors, coordination of technical activities and follow-up on execution.
- Responsibility for planning, coordination, execution and follow-up of flushing and pressure testing of piping systems.
- Delivered internal and subcontractor training in foreign material exclusion (FME) for piping systems.
- Support for site preparation, safety, quality and practical coordination during the execution phase.

2015 - 2022 | SIM A/S - Fabricator / Welder

- Sheet-metal forming, primarily using a CNC press brake and manual plate rolls, including complex sheet-metal layouts.
- First formally trained operator of the company's CNC press brake and responsible for training colleagues.
- Responsible for technical drawings and technical support for production and installation.
- Installation assignments throughout Europe, including stainless-steel piping, welded systems, press fittings and flanges.
- Seconded as Mechanical Supervisor to Aalborg Energie Teknik A/S for a one-year assignment in France.

EARLIER EXPERIENCE

2013 - 2014 | Various Companies - Temporary Assignments

- Temporary assignments as a fabricator/welder and technical assistant, covering production, technical documentation and installation.

2010 - 2013 | Gerhard Christensen A/S - Apprentice Stainless-Steel Fabricator / Welder

- Adult apprenticeship as a stainless-steel fabricator/welder, focusing on fabrication, workmanship and precision.

2005 - 2009 | Haarslev Industries A/S - Technician / Site Supervisor

- Pipe and layout drawings, site management, and repair and fabrication of machinery.
- Assignments in Ukraine in 2007 and in the USA from 2008 to 2009.

EDUCATION & CERTIFICATIONS

2025 Health and Safety Coordinator (AMK-B)

2013 Qualified Stainless-Steel Fabricator / Welder - Tech College

2002 Firefighter and Breathing Apparatus Operator - Svendborg Fire Academy

2001 BA (Hons) Technical Illustrator - Blackpool & The Fylde College

1997 Technical Assistant - Randers Technical College

ADDITIONAL CERTIFICATIONS & TOOLS

- Welding Visual Testing (VT), Level 2
- Hot work | Forklift | Crane | Telehandler
- Advanced Autodesk Inventor | Working knowledge of AutoCAD
- Training experience from the Danish Armed Forces and the Danish Nature Agency

ADDITIONAL SKILLS

Project management & project planning

Technical illustration & drawing interpretation

Leadership, training & instruction

Site preparation & coordination

CNC, sheet-metal development & turning/milling

Dalux reporting & follow-up
